## PROFILE

Software engineer and Informatics graduate of Institut Teknologi Bandung with experience in backend services and full-stack applications. Work includes REST APIs, event-driven microservices, caching, and real-time communication for EV charging operations. AWS Certified AI Practitioner with foundational knowledge of AI, machine learning, and generative AI on AWS.

## PROFESSIONAL EXPERIENCE

**Tiar.ai** Feb 2026 – Present
*Software Engineer* *Jakarta, Indonesia*

- Developed backend APIs and microservices for a charging station management system (CSMS), supporting EV charging operations and station management.
- Integrated authentication, server-sent events (SSE), WebSocket communication, and notifications for real-time mobile and backend workflows.

**Rakamin** Nov 2025 – Feb 2026
*Backend Engineer Intern* *Remote*

- Developed backend services and REST APIs using Ruby on Rails and JavaScript to support application features and frontend integration.
- Identified and fixed application security vulnerabilities.

**Makmur.id** Jul 2025 – Sep 2025
*Backend Engineer Intern* *Jakarta, Indonesia*

- Implemented Redis and in-memory caching for backend services.
- Developed backend features in an event-driven microservices environment; integrated internal and external REST APIs and wrote automation scripts.

**Fata Organa** Jul 2024 – Nov 2024
*Software Engineer (Intern: Jul–Sep 2024; Part-time: Oct–Nov 2024)* *Remote*

- Worked in a five-person team to develop an online meeting application using .NET and Next.js.
- Implemented reporting features and a customer data dashboard.

## TEACHING EXPERIENCE

**Institut Teknologi Bandung** Feb 2025 – Jun 2026
*Programming Laboratory Assistant* *Bandung, Indonesia*

- Supported programming labs in algorithms and data structures, object-oriented programming, web development, and mobile application development.

## EDUCATION

**Institut Teknologi Bandung (ITB)** 2022 – 2026
*Bachelor's degree in Informatics Engineering; GPA: 3.65/4.00* *Bandung, Indonesia*

## CERTIFICATIONS & TRAINING

**AWS Certified AI Practitioner** Issued Sep 2026
*Amazon Web Services Training and Certification*

- Foundational certification in AI, machine learning, and generative AI on AWS; valid through Sep 2029. Verify credential.

**PCAP: Programming Essentials in Python** Sep 2022 – Dec 2022
*Cisco Networking Academy & OpenEDG Python Institute (course)*

## TECHNICAL SKILLS

**Programming:** Go, Python, Ruby, JavaScript, TypeScript, C#, C++, Java, SQL, PHP, Kotlin

**Backend:** Ruby on Rails, .NET, Node.js, Express.js, NestJS, Gin, Flask, Spring Boot, Laravel; REST APIs, tRPC, GraphQL

**Frontend:** React, Next.js, Vite, Tailwind CSS, Chakra UI; HTML/CSS

**Data & Cloud:** PostgreSQL, MySQL, MongoDB, Redis, Firebase, pandas; AWS, Amazon SQS, Cloudflare R2, Docker, Kubernetes

**Tools:** Git, Jira, Midtrans

**Languages:** Indonesian, English, Hokkien; Chinese (intermediate)

## PROJECTS

**Oxy Reflexy — POS & Business Operations System** 2026
*Full-Stack Developer | Go, Gin, React, TypeScript, PostgreSQL, Docker*

- Built a web application for reflexology business operations, including point-of-sale (POS) workflows, customer management, inventory, and therapist commissions.
- Implemented transaction-safe payment and stock updates, cash-ledger tracking, and daily/monthly financial reports with Excel exports.

**Hand — Mental Health Consultation Platform** 2024
*Full-Stack Developer | Go, Next.js, Tailwind CSS, PostgreSQL, Docker*

- Developed backend REST services and frontend features for a mental health consultation website. Backend repository.

**Seatudy — Course Management Platform** 2024
*Backend Developer | Go; Kotlin mobile application*

- Developed backend services for a platform where students and instructors manage courses and track learning progress. Project repositories.

**Hyperlink Search** 2024
*Full-Stack Developer | Go, Next.js, Docker, Tailwind CSS*

- Developed search features and containerized the application with Docker. Repository.

**Fingerprint Matching** 2024
*Developer | C#, WPF*

- Implemented the fingerprint matching pipeline and desktop interface. Repository.

## LEADERSHIP & ORGANIZATIONAL EXPERIENCE

**KAT ITB 2024** Jul 2024 – Sep 2024
*Backend Developer*

- Built tRPC APIs for submission processing, score verification, and information retrieval.

**Skill Up** Mar 2024 – Oct 2024
*Full-Stack Developer*

- Developed course creation, quiz submission, and course management features using Next.js, TypeScript, Tailwind CSS, Chakra UI, and Firebase.

**ITB Fair 2024** Jan 2024 – Jul 2024
*Vice Director of Frontend Division*

- Led frontend development with Next.js and TypeScript, integrated team-built pages to match design specifications, and tested the website before deployment.

**Parade Wisuda Oktober ITB** Sep 2023 – Oct 2023
*Frontend Web Developer*

- Built responsive pages and shared navigation using Next.js, Tailwind CSS, and TypeScript; collaborated through Git pull requests and code reviews.

## AWARDS & SCHOLARSHIPS

**3rd Place**, IFEST Web Development Competition, Universitas Padjadjaran 2024
**Scholarship Recipient**, Beasiswa Bakti BCA 2023/2024 2023
